A dedicated website for each of your six units

Each unit gets its own modern website focused on one product line it makes today. All six link to the Jai Shree Group site, run on one shared platform, and send enquiries straight to the unit that makes the product.

YOUR APPROVAL ON TWO POINTS

1. **Unit and website pairing.** Is each unit matched to the right product line above?
2. **Two unit names.** "Shree Weld Mesh" and "Jai Shree Filtration" refer to products no longer made. Shall we show them with a descriptor, for example "Shree Weld Mesh — Precision Sheet Leveling", or would you like new names?

Reply "Approved", or tell us what to change, and we will start.
